RE: MSCA Clubs **“SUPER OPTION”**

Fellow MSCA (NSCA) Shooters

Introduction of the class **“SUPER OPTION”** that will be offered by the MSCA Clubs and MSCA.

Starting this year, MSCA has decided to replace the “Iron Man” contest with a new “Class Option” that will be hosted by each of our clubs around the state. This class option will be like any class option that a shooter may enter at any Sporting Clays where options are offered. The shooter (classes D-Master) would pay a \$10 extra to play the option in his class, in hopes of winning his class at that event. In addition to the \$10 that the shooter will pay into the option, the host club will match that \$10 with an additional \$10 and the MSCA will also match with an additional \$10. The shooter wishing to play the option will have \$30 invested in his class option at that event. This class option will be called **“SUPER OPTION”**. The pay-out will pay two places per class based on 60%/40% for 1st and 2nd place in each class. In the case of ties, the option purse will be paid equally among all ties. If there is a tie for high class winners, the purse will be divided 50/50 between the two shooters. Shooters winning in this class option will be paid the winnings within a few days of the shoot and not waiting until the end of the year for payment as in the past IronMan contest. The host clubs and dates of the **“SUPER OPTION”** are listed below. If you have any questions, please contact any MSCA board member.

Looking forward to seeing you out on the range.
